

Primal

D. Description of the Project

Why do you want to carry out this project? What are its objectives? How does it link to the objectives of the Erasmus+ programme and this specific key action? What are the issues and needs are you seeking to address through this project?

Today's society is degrading people with and without disabilities from their survival skills and connection with nature. Objectives are to break the rules and make everyone feel equally able to do a certain task needed for survival as well as sharing the knowledge about those skills that seem to have started to disappear. Concerning Erasmus+ program, this project can bring people from different countries and cultures together, creating teams and develop teamwork skills since there is no better way to make people team up than trying to survive with scarce resources. Doing this, people would share their personal experiences and knowledge in order to thrive as a group which can easily be helpful and applied in their everyday life (concerning teamwork skills). Today, with technology widespread, young people are losing touch with the nature and people surrounding them. This project will bring this set of skills to the young people on whose shoulders the future lies.

G. Main Activities

Please explain the context and objectives of the activities you are planning and in which way they meet the objectives of the project.
(max 5000 characters)

The context of this project will have based on showing to the participants how those people who are really living in these conditions feel, because nowadays we are so comfortable in our home/house with our families, friends, jobs and life seems good for us. We will work especially on how to survive in this kind of condition without any help, without wasting the foods, reduced budget, limited access to internet, any care from the government or local people who manage these conditions better than others. Focusing on people with disabilities, with the environment (the conditions of the street, the road, accessibility in any kind of building, sport zone, youth center...) sharing activities with local people and involve them to participate on this project because we want to bring the humanity back to the participants on them.

What are the basic elements of those activities? For each activity, remember to describe at the very least all of the following: type of activity, venue(s), planned dates, working methods used, countries involved and the role of each project partner in the activity.

The project will be somewhere in Slovakia, where the conditions are very bad. The whole project will consist of 10 days of which:

First day, after arrival of all the participants, getting them introduced to the environment and each other, in the evening will be intercultural night.

- Days 2, 3 and 4, introduction of the project, teambuilding workshops and energizing
- Days 5, 6 and 7, "survival" skills workshops (meeting local people and getting information about the environment and their own personal experience)
- Days 8 and 9, applying the skills acquired in the previous days on the two-day, one-night surviving situation
- Day 10 resolution of the camp experience, thoughts on the skills acquired during the project and farewell evening party

H.1. Impact

What is the expected impact on the participants, participating organisation(s) and target groups?

Well, we expect from the participants to be involved 100% on this project, give interest, share their own personal experiences and sharing new innovative ideas. To have increased teamworking skills at the end of the project, and be willing to apply them in the future, as well as get an opportunity to implement them and improve their life and the life of other people. The organization is expected to have improved their organizational skills and soft skills. From all of this, the target group should have had a nice experience and just like the participants, realized things they didn't know and feel comfortable around many different people and treat all of them with equality.

Monopreneurship

D. Description of the Project

Why do you want to carry out this project? What are its objectives? How does it link to the objectives of the Erasmus+ programme and this specific key action? What are the issues and needs are you seeking to address through this project?

Equipping youth in knowledge about legal procedures of setting up own business
Rising awareness of features required to be a head of enterprise
Rise personal skills required to be a team leader
Equipping millennials in problems – solving skills, crisis resolution, negotiation skills
Adapting to variable situations and new problems
Building business plan
Simulation of Monopol strategy in survival conditions.

Need is: Millenials is a group of youth with a vision but not practical skills. Basic need is to transfer their potential into practice and allow them to realize their ideas in practice.

G. Main Activities

Please explain the context and objectives of the activities you are planning and in which way they meet the objectives of the project.
(max 5000 characters)

What are the basic elements of those activities? For each activity, remember to describe at the very least all of the following: type of activity, venue(s), planned dates, working methods used, countries involved and the role of each project partner in the activity.
(max 5000 characters)

Simulations, presentations, role-playing, team building, debates, discussions, videos, group work, brainstorm, decision making.
Countries involved: HR (preparation of dissemination part), PL(selection of participants), DE(aprovisation), TR(venue), NE (budget)
Each partner will contribute with experience in business plan building and implementation of the ideas on the local level. Altogether partners will create a strategy for setting up international enterprise/NGO.

H.1. Impact

What is the expected impact on the participants, participating organisation(s) and target groups?
(max 5000 characters)

New Erasmus+ projects, local initiatives, events, flashmobs, workshops, extending open-mindedness and extending horizons etc. Evaluation: middle evaluation, pre-post tests

Get the job!

D. Description of the Project

Why do you want to carry out this project? What are its objectives? How does it link to the objectives of the Erasmus+ programme and this specific key action? What are the issues and needs are you seeking to address through this project?

There are a lot of people without job in some of these countries and in others the rate of employment is good. So we want to connect people to work together on this problem. Participants will learn how to make good CV through Europass service, how to act in job interview, how to find job via Linked In account such. They will learn and get some soft skills that they can use in order to be more competitive in job market.

G. Main Activities

Please explain the context and objectives of the activities you are planning and in which way they meet the objectives of the project.
(max 5000 characters)

What are the basic elements of those activities? For each activity, remember to describe at the very least all of the following: type of activity, venue(s), planned dates, working methods used, countries involved and the role of each project partner in the activity.
(max 5000 characters)

The whole project will consist of 10 days. The project will take place in Osijek, Croatia in summer 2018. Participants profile: youth leaders, volunteers, people who finished university who do not have job, people who are working with young people. We will have participants from: Croatia, Greece, Macedonia, Italy, Latvia, Germany, Czech Republic. This our methodology of working: work in pairs, groups, national and international groups, debates, stimulation, learning from each other, creating tool box.

H.1. Impact

What is the expected impact on the participants, participating organisation(s) and target groups?
(max 5000 characters)

Well, we expect from the participants to be involved 100% on this project give interest. The participants will educate people in their communities around 200 educated youth.

I stand for YOU

D. Description of the Project

Why do you want to carry out this project? What are its objectives? How does it link to the objectives of the Erasmus+ programme and this specific key action? What are the issues and needs are you seeking to address through this project?

According to statistical data from UN Women “It is estimated that 35 percent of women worldwide have experienced either physical and/or sexual intimate partner violence sexual violence by a non-partner at some point in their lives. However, some national studies show that up to 70 percent of women have experienced physical and/or sexual violence from an intimate partner in their lifetime.”

Objectives:

- 1- To raise awareness about different forms of oppression and discrimination against women and to reflect upon their direct and indirect causes and effects.
- 2- To analyse the phenomenon of gender violence: common points, differences, specify among the partner countries.
- 3- To learn the ICT tools which can be used for fight with violence against women.
- 4- To provide the participants competences in video making in order to increase visibility and reporting oppression against women and their local realities.
- 5- To develop skills which will help to respond to the injustice and to encourage solidarity in terms of gender discrimination and violence.

Objectives of this training course (key action 1) directly link to objectives of the Erasmus+ programme such as Gender Equality, Equal Opportunities, Human Rights Protection.

With this training course we are aiming to raise awareness regarding violence against women.

G. Main Activities

Please explain the context and objectives of the activities you are planning and in which way they meet the objectives of the project.

(max 5000 characters)

During the training course we will use non-formal methods of education. Some of the activities which will be implemented at the project are:

- Round-table meeting with the NGOs working in the field of fighting women violence, sharing best practices and tools used at work;
- Study session about information and communication technologies which can be used by NGOs for increasing the effect of their work in the field of women rights (for example, harassmap.org);
- Workshop on video making. At the project participants will come up with the ideas for the promotional video about women rights, which will be recorded during the training. We will also request them to make a video upon the arrival to their home, which will present the situation about women violence in their country.
- Theater workshop. For this session we will invite a professional actor, who will give the tips on creating and performing sketches. The workshop will be followed by the group work, during which participants will create small plays on the topic related to women violence and women rights, which will be later on presented to the local community;
- Campaign involving local society;
- Developing Erasmus+ projects

H.1. Impact

What is the expected impact on the participants, participating organisation(s) and target groups?

(max 5000 characters)

PARTICIPANTS

Will increase the awareness about the situation of women rights in different countries; improve video-making and performing skills; learn how to use ICT for decreasing the amount of violent cases and for protecting abused women. Will come up with Erasmus+ project ideas and will start developing them during the training course.

PATICIPATING ORGANIZATIONS

Will discover new tools, will create promotional video which will increase the awareness of local community about the current issues. Will get closer to the empowering of gender equality.

Will become part of the international network fighting for equal rights.

TARGET GROUPS

Will learn to talk about the violence (and not to hide it!). Will get the professional help, will learn how to protect themselves from violent situations and what to do in case you became a victim of it.
